

PROFILE SUMMARY

Full-Stack Software Engineer with **2+ years** of experience in software development process. Strong knowledge of **Object-Oriented Programming Languages, Data Structures** and **Algorithms**. Understanding of **SDLC** to deliver quality and consistency in performance. True **team player** with well-developed **analytical, problem-solving, interpersonal, written and verbal communication skills** acquired through professional work experience.

EDUCATION

Master of Applied Computing University of Windsor, Windsor, Ontario, Canada	January 2019 – August 2020
Bachelor of Technology, Computer Engineering Ganpat University, Mehsana, Gujarat, India	August 2014 – May 2018

SKILLS

- Languages** – Python, Java, C#, .NET Core, ASP.NET, JavaScript, TypeScript, HTML, CSS
- Cloud Tools** – AWS, Microsoft Azure, Heroku
- Frameworks** – Angular, Node.js, React, Express.js, .NET, Entity Framework, Ionic, Flask
- Database** – MongoDB, Redis, MySQL, PostgreSQL, MS SQL Server, SQLite, Firebase
- Project/Code Management Tools** – Git, JIRA, Bitbucket, SDLC, Agile, SCRUM
- Others** – Nginx, jQuery, JSON, XML, Postman, Chrome Dev Tools, Docker, Kubernetes

EMPLOYMENT

Cloud .NET Developer Technologies: C#, .Net Core, Angular, HTML, SCSS, TypeScript, SQL Server, Azure DevOps <ul style="list-style-type: none">Working on multiple projects simultaneouslyDelivering development activities on time and on budget per project plan with the highest level of quality while producing code that is secure, reliable, reusable and scalableUnderstand and help refine un-stated requirements & work with the Development Manager, Business Analyst, and Project Manager to define software requirements; and to assess feasibility of solution within time constraintsProactively identify areas for improvement, seek solutions and make recommendationsWork with the project team to review problems, define and test solutions	BDO Canada	March 2021 – Present
Programmer Analyst – Intern Technologies: Angular, Python, C#, ASP.NET, Docker, Kubernetes, MySQL, Apache ActiveMQ, Redis, Azure Data Studio <ul style="list-style-type: none">Responsible for developing micro-services in Angular, ASP.NET, Spring Boot and Python, also containerized them using Docker and orchestrated using KubernetesAssisted for back end development to create Web APIs using Flask, .NET; performed Unit and Integrated testingLeveraged knowledge of Notebooks to share code snippets using Azure Data Studio in Azure cloud labDuties included meeting with business partners, scrum masters and QA to identify and groom new functionality, upgrade existing functionality and system design changes in Agile- Scrum environment	Ontario Teachers' Pension Plan	January 2020 – August 2020
Software Developer (Part-time) Technologies: Angular, Node.js, Ionic, Apache Cordova, HTML, CSS, Bootstrap, Firebase, JSON, Bitbucket <ul style="list-style-type: none">Day to day duty included developing mobile application which connects to CNC machine and fetches live JSON data using Rest API; updated and maintained the data in firebase databaseDesigned User Interface using web technologies such as Angular, Bootstrap 4, Ionic framework, HTML and CSSUtilized Apache Cordova to add native-app functionalities by ensuring that application is Android/iOS compatibleCollaborated remotely with multiple team members in order to meet deliverables on time using GitHub	Bidja Innovations Inc.	January 2019 - December 2019
Android Developer Intern Technologies: Java, XML, SQL, Git <ul style="list-style-type: none">Gained knowledge of debugging, profiling and optimizing Android Apps for performance; Worked alongside other engineers to help architect, build and iterate on major components and new product features for Java Android AppDeveloped and maintained database objects such as tables, views, user defined functions and procedures, cursor, triggers, SQL joins in SQL server to access the database	VeerKrupa Infotechs Pvt Ltd	January 2018 – April 2018

ACHIEVEMENTS

- Participated in various academic coding competitions and secured top ranks in many of them
- Helped out participants during the coding competition for queries related to technical problems, provided resources for an event
- Demonstrated various professional skills while working at Ontario Teachers' Pension Plan
